Belfast, July 13.—This was a day filled with tragic possibilities for Ireland on account of the high feeling attending the important celebration of Orangeism's day. The attention of the entire United Kingdom was focused on Belfast where Sir Edward Carson, the Unionist leader of the anti-home rule forces led 50,000 marchers through the city to Drumahaire.

CRIMINALITY OF NEW HAVEN MANAGEMENT EXPOSED BY REPORT

Washington, July 13.—"One of the most glaring instances of maladministration revealed in all the history of American railroading" is the Interstate Commerce commission's characterization in its findings in the report of the New Haven's financial condition to the senate.

In a report of 30,000 words probably the most drastic in terms of any ever made by the commission, the New Haven directors were pronounced "criminally negligent."

Evidence points to violation of the law in districts in Massachusetts, Rhode Island and New York and the federal department of justice.

A reasonable estimate of the loss to the New Haven by reason of waste and mismanagement, says the report, will amount to between \$50,000,000 and \$80,000,000. Directors should be made individually liable to civil and criminal laws for the manner in which they disregard their trust.

All the commission's strictures were upon the management of the New Haven system under For-

HUERTA PREPARES TO FLEE WHILE REBELS RUSH TO MEXICO CITY

Vera Cruz, July 13.—An attaché of the British legation at Mexico City arrived here late last night and was still in conference with Consul J. S. Hutchinson this morning. His coming soon after Esteva Ruiz, former acting minister, had stated that Rear Admiral Craddock was arranging for the departure of President Huerta from his capital under British protection strengthened the belief that the end of the present Mexican government is near.

The British official is said to have brought important communications from Sir Lionel Carlen, the British minister. Rumors were even circulated here early in the day that Huerta has already left the capital. This rumor reached Gen. Funston, but the American commander had no confirmation.

From information available here it is understood that Minister of War Blanquet will surrender his post at the same time that Huerta yields.

payment of uninitiated vouchers without any clear specification of details; the confusing interrelation of the principal company and its subsidiaries and constituent companies; the practice of the practice of financial ledger-keeping in issuing large blocks of New Haven stocks for notes of the New England Navigation company and manipulating these securities back and forth; the goals of New Haven stock to friendly parties with the design of boosting the stock and unloading on the public at the highest market price; the unlawful diversion of corporate funds to political organizations; the scattering of letters to attorneys of five states who rendered no limited bills for services and who conducted no litigation to which the railroad was a party and extensive use of a paid lobby."

Suit To Recover Losses

Boston, Mass., July 13.—Whipple, Sears and Ogden, attorneys representing minority stockholders of the New York, New Haven and Hartford railroad, have demanded that the directors join their clients in the suit to recover about \$125,000,000 alleged to have been wasted by the management.

The suit, which it is said, will be filed this week, is to be directed against the estate of J. P. Morgan, William Rockefeller, Louis C. Bayard and others who were members of the New Haven directors at the time that transactions that have been the subject of inquiry by the Interstate Commerce Commission were made. In a letter to the commission made public today the attorneys say they refer to the testimony concerning the New Haven's unaccountable transactions brought out by the Interstate Commerce Commission's report.

The commission's conclusion can be summed up as follows: Losses to New Haven stockholders for the acts of their directors will range from \$60,000,000 to \$200,000,000.

Suits to recover the money should lie in some cases. Many of the transactions, characterized as violations of the laws of New York, Rhode Island and Massachusetts and the federal anti-trust laws have been reported to the state and the federal department of justice.

The depreciation of the Boston & Maine began when the Mellon-Rockefeller management came into control. John Billard of the Billard company were made agencies of the New Haven. Billard never used a dollar of his money and earned his money and papers. It was not the case of the New Haven board should take profits of more than \$2,000,000.

All the assets of the Billard company belonged to New Haven stockholders and suits by the board against Billard and those who participated in the transactions should be maintained. The suits against corporations and their officers, which the reports say, in New Haven were frequent, are based on unmeasured terms. The system of interlocking directorates can be deemed as it existed in New Haven in general. The commission said it found most other interest was better represented on the New Haven than the average stockholders.

President Mellon's dealings with the Police Inspector Herries of New York in the West Chester and transaction were brand-new, corrupt and unlawful. The amount illegally expended should be recovered. The purchase of Rhode Island trolley cars and coastwise steamships

were described as extravagant and wasteful. All the transactions the commission held were connected with the object of setting up "a complete transportation monopoly in New England in violation of the federal statute."

MEXICO

(Continued From Page 1.)

Zenteno, has completed the circle of active military leaders summoned since the signs began to point to the retirement of President Huerta. It is reported that Barron may be appointed acting minister of war if Gen. Blonquet declines his portfolio.

Developments are awaited with intense excitement today.

The fact that Huerta had invited the newspaper correspondents to lunch with him was regarded as significant. Rumors were in general circulation that he would issue a statement announcing that he had written this resignation making Francisco Carranza minister of foreign affairs, his successor.

Rivalry Among Rebel Generals

Chihuahua, Mex., July 13.—Fearing the sudden turn of affairs in Mexico will result in General Obregon and Gonzalez pushing their forces to Mexico City before the division of the north of Mexico can reach here, General Villa ordered all of his commanders in the field to be ready for an immediate march. It is said the march to Queretaro and Mexico City would be well under way in less than a week.

The success of General Obregon's forces at Guadalupe and the report reaching here that General Gonzalez's forces were attacking San Luis Potosi, the last Huerta stronghold north of Queretaro, are causing Villa much worry and he has considered it impossible for the armies to accomplish anything without his assistance.

It is reported that General Gonzalez is on his way from Saltillo to take personal command of the San Luis Potosi battle. General Carranza is also enroute from Tampico, bringing ammunition and supplies. Simultaneously came word from Guadalupe that General Obregon has started 5,000 of his troops to repair the railroad to Mexico City so that the remaining 15,000 troops can be taken there by rail.

Road To Be Rebuilt

London, Eng., July 13.—The manager of the Mexican railroad here today said that Provisional President Huerta's government had ordered him to reconstruct the portion of the line near Vera Cruz which was destroyed by the

Mexican federals when the city was occupied by Americans.

Work On Railway Begins

Vera Cruz, July 13.—Four hundred laborers, acting under orders from Mexico City, started work today repairing the two-mile gap in the Mexican railway between this city and the capital, and the pushing of the work is believed here to indicate a possibility that the first train to pass over the repaired road may be a special conveying General Huerta and his family to the coast. The gap which has been without rails since April 21, will be restored to working order within two days at the most.

Bankers here this afternoon professed to know that General Huerta and General Blanquet will be here tomorrow night with their families. It is said General Pena will succeed General Blanquet.

Carranza's Refusal Reported

Washington, July 13.—Gen. Carranza's refusal to participate in the mediation conference with the Huerta delegates was conveyed to the state department today from John R. Silliman at Saltillo. The state department will make no further effort to have him enter the conference.

CARPENTIER HOPES TO BE CHAMPION

Manitoul, France, July 13.—"I hope to beat 'Humbert' Smith. I believe that I will do it. My intention is to meet Jack Johnson afterwards for the title so coveted—champion of the world in all categories." This statement was made here today by George Carpentier, white middle weight and heavy-weight champion of Europe, as he packed up preparatory to going to London where he will meet Smith Thursday night for the heavy-weight title.

Dynamite Safe

Norwood, O., July 13.—Cracksmen dynamited the safe in the general store of W. T. Palmer at New Haven, Huron county, some time last night, escaping with \$65 in cash and \$100 in stamps. Small amounts belonging to the store of the P. M. & N. Electric company were also taken.

POMERENE MENTIONED

Columbus, O., July 13.—Rumors that Democratic leaders of Ohio would ask the President to appoint Senator Pomerene to succeed Judge Lorton and would request Governor Cox to succeed Senator Pomerene and the appointment of Lieut. Governor Greenland who would succeed him in the gubernatorial berth was denied by Gov. Cox today so far as it pertained to himself. "I am not a candidate for Senator Pomerene's position," he said.

HOT TIME

Chicago, Ill., July 13.—Following a day of record breaking heat in the Central, West, Northwest and South, the blistering rays of a mid July sun this morning gave promise of still higher temperatures for the coming day. Before the sun was three hours old today, Kansas City reported a temperature of 88; St. Louis, 85; Indianapolis and Birmingham, 80, and other cities from the Great Lakes to the Western extremity of Kansas, sent in word of another day of heat.

In Northern Ohio yesterday the temperature ranged around the 90 and the 100 mark, but showers in this section brought some relief this morning. 47 cities in the United States experienced weather of 90 degrees or over.

At Cincinnati street thermometers registered 116 degrees.

Open TUESDAY Evenings For Your Convenience**A NEST EGG MAKES THE HEN LAY A Small Bank Account MAKES YOU SAVE!**

JUST a little start on the road of savings is all that is necessary sometimes to start on the highway to affluence and riches. It is absolutely necessary to make the start if you ever expect to amount to anything worth while. Of course if you propose to eke out an existence with no thought of the future, then this talk will not interest you in the least. But if you are aiming high, if you propose to care for your loved ones, if you have their happiness at heart and your own future at stake, if you have resolved to amount to something, we are quite anxious to assist you—to help you plant your feet on the broad plane of good citizenship. A bank account is the strongest guaranty of your worth. It gives you standing—credit is yours for the asking—your word is as good as your bond—you are somebody. Are you scattering your earnings to the four winds? Aren't you laying aside something each week for the rainy day that is bound to come? Stop and think! If you have been careless concerning your future, stop right now and consider—consider hard—consider earnestly. Let one of our little banks help you. Take it to your home and each day drop into it the pennies and dimes and nickles you have been spending foolishly. Watch your account grow. We keep the key—you can't open the bank—the money being as secure as though it was in a safety deposit vault. Bring the bank to the Security, the only Honor Bank of Portsmouth, and watch your account grow.

THESE LITTLE BANKS ARE WONDERS. THEY MAKE YOU SAVE. THE SECURITY BANK WHERE SAVINGS ARE SAFE

The Course of Pinkie's Heroism Runs Rough

Who Has Keen Vision

While the sight of very few people is as good as it might be, almost everyone imagines that he can see perfectly. Evidence to the contrary is usually ignored. Under pressure, a man admits that he can see better than himself, but it does not often occur to him that his own vision is therefore probably defective.

WHO NEEDS IT?

Who does not need it? Every man, woman and child needs it. The child that its education may be accomplished with the greatest ease and efficiency; the woman that her household or business may be achieved with dispatch and accuracy; and the man that his business may be well and quickly done. Bad vision is something which no one can afford to tolerate—and none need trouble without aid. We make no charge for eye examination and recommend glasses only when necessary.

Lecture Is Postponed

The stereopticon lecture which Rev. Clayton S. Brooks was to have given at the New Boston Christian church this evening has been postponed until Tuesday evening, June 21st. The change was made owing to the fact that the stereopticon machine was broken when it arrived here this morning, and also to the fact that the lecture would conflict with the funeral of Mr. Sterling Armstrong this evening.

The Successful Man

MORE than nine times out of ten you will find that the successful man began his success by first being a prudent man. He early learned the value of saving and began putting his surplus in bank. There is character and force about the man who has money in bank. He begets confidence in himself and confidence and credit from the community. He becomes recognized as safe and dependable. Opportunities begin to come his way and having some means he is the better able to profit by them.

The first step towards success is saving. We want to help you in that step and we offer you the security and facilities of our bank. One dollar will open a savings account and we allow interest on all savings deposits and compound the interest.

NOT SO WARM MONDAY

PORTSMOUTH WOODMEN ENJOYED AN EXCURSION

A complete success from every standpoint was the Woodmen of the World excursion to Dayton Sunday. Splendid time was made going and coming and the 311 excursionists had a great day of it despite the terrific heat.

The special over the N. & W. left here at 5:30 and arrived in Dayton at 10 a.m. Returning, the special left the Great City at 7:30 and pulled into the N. & W. depot here at 12:30. The special covered the distance between Portsmouth and Chillicothe, 50 miles, in one hour, flat, Sunday evening.

In the McCabe park Sunday afternoon the Woodmen of the World lodge conferred the initiatory degree upon a class of 700 candidates. Eight thousand people witnessed the exemplification of the ritual work, which was faultlessly put on by the degree staff of the local lodge, which came in for much praise because of the efficiency displayed at the big initiation. Prominent members of the order from all parts of the United States were present and the fraternal meeting was one of the greatest ever held in Ohio. The visitors marveled at the smooth work of the degree team of River City camp No. 211, W. O. W.

The committee on arrangements which covered itself with glory, was composed of George Ditty, chairman, Roy McElhenny, Taylor Coldman, George Alvord, George Clifford, W. H. Clark and Capt. Joseph Janetsky.

Mr. McElhenny was called on for a talk and he chose for his subject, "The Life of Joseph."

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Miss Wise.—Why does a young man always want to hug a girl when they sit out in the porch swing of evenings? I don't like it a bit but he won't stop. I hate spoony girls or boys.

CUTE KID.
If you don't like the way he acts, why sit in the swing? Haven't you any chairs? If he doesn't like to sit by himself let your father or mother sit with him. The quickest way to put a stop to such things is to remove yourself from the immediate neighborhood of the young man who likes to spoon. He will not need to be told twice when he receives this kind of reproof.

Dear Dolly.—I am nearly 18. Do you think I will grow any taller?
BERTHA.
You may grow some yet. However, if you are tall you will probably grow out instead of straight up.

Dear Miss Wise.—Is it customary for a widow to wear white at her second marriage?

YOUNG WIDOW.
No. She should wear a gray or lavender dress.

Dear Dolly.—Will cocoa butter make the face fat? I am awfully thin. I have a good appetite and am in perfect health. What can I do to make my face fuller?

A READER OF THE TIMES.
Nothing will make the face fat without making the whole body fleshier. A gentle massage with any good cold cream will make the face look better. Get a cleansing cream and massage with this before going to bed. Wipe all the cream off the face when through massaging.

Cincinnati, O., July 10.—My Dear Miss Wise.—Can you tell me how I can remove ink from an Indian blanket? The colors are scarlet, white and bright blue. It is a genuine Indian blanket, dyed by them, so the colors are fast.

LOSANTVILLE.
You can buy an ink eraser at the drug store that might remove it. If this won't do, try javelle water. You can also get this ready prepared at the drug store. When an ink stain is fresh soaking in lathered milk or sweet milk will take it out. Soaking it over night in water in which a

tablespoon of cream of tartar has been added, is also said to be good.

Wheelerburg, O., July 11.—Dear Dolly.—I have two pet crows and would like very much to have them learn to speak. Is there any surgical operation I could perform on them which would enable them to talk?

CROW OWNER.
Crows can talk. Better get busy and study bird language. Didn't you ever hear a crow say "Hawky?"

Inquisitive Joe.—You will find all the information you ask for in the Bible. There is a book called the Bible History. If that is what you mean you can get a copy from Benzinger Bros., Cincinnati, Ohio. Judah and Pharaoh exercised their own free will just the same as you or anyone else. Every individual has that privilege, and they can do good or evil just as they choose.

Dear Miss Wise, I am 16 years old. I am going with a boy 17 years old. We are thinking about getting married. Do you advise me to get married?

BLIND EYES.
You can't get married until you are 18 and the boy is 21, Blue Eyes, so forget it.

Dear Dolly.—At what age should a child walk? My little baby is 11 months old, yet he has never tried to walk.

ANXIOUS MOTHER.
It depends upon the child. I have known children to walk at nine months and others who did not walk until they were 15 months old. Don't try to force him to walk or his legs will be bowed.

Portsmouth, July 11. Dear Miss Wise.

Dolly.—Am going to trouble you again to print a recipe for rosebuds. I had one saved but lost it.

Gather rose leaves and grind them nine times through a food chopper, using the finest knives that they may become of the consistency of putty. Now spread the mixture on an iron pan and leave it until it becomes black, in the meantime, frequently stirring it up. To make the buds, take a thumb and press ball of the paste to admit of uniformity of size; take it out of the thumb and roll it between your hands until it is firm and round, using a little olive oil in the palm to finish. String the buds on hat pins or fine knitting needles and place in a sunny window to dry, giving them plenty of time to harden thoroughly. To polish the buds, put them in a little flannel bag and rub between the hands. You will think them too large, but when dry they are not quite half as large. They are beautiful strings alternately with small gold beads or with small glass beads using one white, one black, one white between each of the black rose buds. The scent of the roses will cling to these buds and they will be as delightfully fragrant in the years to come as at first.

West Virginia Girl.—What do you want people to give you? If you work you surely get paid for it, don't you? Don't pay any attention to the women who live in your neighborhood, if they are not of the right sort. I would advise you to get out of that neighborhood. It wouldn't take you long to move, you know. Even if your folks own their home, sell it, and get away as far as possible from such people.

HOME HELPS ON BEAUTY CULTURE

It was one of those rainy afternoons of last week, and several women were sitting in the lounge room of a woman's club, looking gray and dragged out and a little sooty.

Each of us hated the appearance of the others, and each knew she looked the same could she but catch a glimpse of herself in the mirror, so each forbore to criticize or indicate the sooty shadows under the eyes or round the mouth of her neighbor.

Then in came Margaret, as fresh and pink and white as if it were a day in June and she had rolled up to the door in a luxurious motor car of her own instead of having descended and mounted stairs and walked along in the subway, with quite a walk afterward.

We stared at her daintily, and at last Elizabeth burst forth with: "How do you do it?"

"Do what?" asked Margaret. "Oh, keep your skin so fresh and clear on such a muggy day. You look as if you'd never seen or even heard of a rainstorm."

"Do?" laughed Margaret. "I'm glad, because I've taken so much trouble to achieve this end, and I mean to go on looking dusky all winter, through rainstorms, snowstorms, fog and blizzards."

"Well, what's the secret of it?" How's it done?" we demanded.

"I'll tell you," said Margaret. "I'm glad, because I've taken so much trouble to achieve this end, and I mean to go on looking dusky all winter, through rainstorms, snowstorms, fog and blizzards."

He complimented the work being done in Ohio, and especially that of the Department Commander Perry Knapp. Features of Monday morning's council were addresses by Grand Chief Patriarch J. L. Ugh, Grand Scribe F. L. Garrett, Grand Master Younger and Grand Secretary C. H. Lyman.

HIT BY TRAIN, HEAD INJURED

Officer Ridings, while walking out Mineral Springs, where they had been threshing. They got off at Vera and sat down to rest. Soon after, encountered a man bleeding profusely from the head and found he had been struck by a train.

FIRST BAPTIST CHURCH NOTES

The attendance at the Men's Bible class of the First Baptist church was a little better than Sunday week ago in spite of the extremely hot weather. About 40 marked themselves up present. The lesson was taught by Rev. T. H. McAfee was very interesting. In fact so much so that the heat was forgotten.

The lesson, "Greenness Through Service," found in Mark 10:32-45. In this lesson we find discourse and native concerning Jesus going to Jerusalem.

These people were amazed that Jesus was so calm, their own hearts were filled with fear, as he led them to Jerusalem. They knew that the Jews had ordered his arrest, they wondered at his boldness in the face of danger. The ambition of the two sons of Zebedee, James and John, we find in our midst, one man trying to push himself ahead of the other. A very striking allegory. "If you don't look out for yourself, no one will look out for you, or God helps those that help themselves."

Everywhere today, be it in shops or in business, we find this selfish man. The man who is sought is greater than a man who seeks. Our burning desire is of our future opportunity vs. temptation. Opportunity sometimes transforms to temptation when we do things for selfish motives. We are using opportunity for temptation. How great were James and John to be excited. It is the greatest desire of any man in any walk in life to be the right hand man of their employer or superior. Often a man walks from a factory and feels he is so important, that the firm cannot do without him. In fact he thinks he is great enough to discharge the boss. We often ruin our opportunity through temptations.

The request of James and John was right, but the object was wrong. So it is the independence of men, the largeness of men, and not the brawn and muscle of the thing we seek. If we are going to rule with Christ we must suffer with Christ, as he said to these men, are you prepared to drink the cup of suffering? Are you ready to be baptized with

Hurt In Diving

Evon Jenkins, a driver for the Portsmouth Chemical company, was frightened out about the head, right shoulder, hands and left leg when he got tangled up in a mass of tin roofing while diving in the Scioto river near the old bridge site Sunday evening. Friends assisted him to a doctor's office and later took him to his home, No. 1213 Third street. He was reported able to be up and about Monday morning.

Suspended Officer

Officer Frank Gansley was suspended for ten days by Chief W. T. McCarty Sunday for alleged neglect of duty.

Gansley, who has been patrolling Twelfth No. 5, had asked permission to remain at home until 9 o'clock Saturday night, claiming that his child was ill. He failed to report at the promised time and failed to send any word in explanation of his absence.

Chief McCarty expects to investigate the officer's conduct and on this depends the outcome of the case. Gansley offered to resign, but was advised against taking any hasty step.

SUNDAY SCHOOL ATTENDANCE

The Sunday school attendance record for Sunday shows that the attendance has taken on new life, there being over 600 more present Sunday than the week before. Many are returning from their vacations which took quite a number out of the city and away from the Sunday schools. Trinity was again in first place, holding onto the honor position with a large margin. Following is the attendance record for Sunday:

BIG MALLETS TO TAKE PLACE OF SMALL ENGINES

Chillicothe, O., July 13.—Eight on each side. Of a double compound type, with superheaters, as great an amount of tonnage can be transported with them as is now hauled by a double-header.

About four years ago a type of engine almost as large as the Mallet engines will be, was tested on the N. & W. It was entirely too heavy for the tracks and for the bridges, however, and so proved unsuccessful. Since the construction of the double tracking and the strengthening and rebuilding of bridges, the use of them will be possible and advantageous.

STYLES VS. RELIGION

That present day styles are opposed to religion was one of the points raised by Rev. Father T. Goebel, pastor of St. Mary's church, in speaking on the subject "Genuflection." Father Goebel said many modern modes were such that women were no longer able to gracefully and properly genuflect or bend the knee as an act of adoration in entering and leaving the church pews and when passing the tabernacle.

GREASE WAS ON FIRE

Grease in a skillet, catching fire, caused a big scare at the home of George Reinhardt, 1118 Fourth street, Sunday evening, and resulted in the calling out of Companies 2 and 3 at 6:16 o'clock. Some boy, who was alarmed by the smoke, was responsible for the unnecessary run of the companies, as there was nothing for the firemen to do.

BIBLE PICTURES AT GRAND

The second part of the beautiful Bible stories now at the Grand began Sunday for three days, starting with the time of Melchizedek. It goes through many of Israel's experiences—their wandering in the wilderness—their affairs during the reign of King Saul, David and Solomon. A beautiful part in the film is the story of Elijah's restoration of the Shunammite's son; also the beautiful film illustrating the ten plagues, the institution of the Great Passover Feast, the final submission of Pharaoh at death of his first-born, and order for release of the children of Israel and the great Exodus. These are wonderful productions and were repurchased in Egypt and Palestine, where they were originally enacted. The coloring of the pictures and the realistic description of the people, their costumes and mode of living, is so realistic that one can imagine one's self carried back into those far-distant days and living over again those scenes with the people back there. This will be the last time in Portsmouth, so don't fail to see them now, as there will be no return date.

SUNDAY WAS THE WARMEST DAY IN HISTORY OF CITY

A summer noted for its terrific heat and high temperatures leaped into undying fame Sunday when the mercury had the audacity to climb up to the height of 106 degrees.

According to Weather Observer Dr. Harry Schirrmann, it was the hottest day on record for Portsmouth. He looked back over the weather records recorded in 1823, but he found no day on which a temperature of 106 was recorded.

Thousands of Portsmouth people are perfectly willing to accept Dr. Schirrmann's word that Sunday was the hottest day this city has ever sweltered through. It was a blistering warm day, and it was actually dangerous to venture out beneath the burning, strength-sapping rays of Old Sol. Owing to the intensity of the heat the sun-baked streets were practically deserted. Old Sol had a field day of it and humanity paid the penalty.

Sunday, July 12, will long be remembered as the day on which a new heat record was hung up in Portsmouth.

P. B. Kehoe, of the Portsmouth Banking Company, stated Monday that a temperature of 105 was recorded back in 1898 or 1899. He says he remembers the day very vividly as it makes him warm to think of it.

And the heat wave is not of a local nature, as according to telegraphic reports it extends from coast to coast. It is the worst heat wave experienced in this country in many years and the worst of it is that the end is not in sight as no relief is on its way.

The Ohio Valley, the weather man says, will be in the merciless grasp of the heat wave for several days. Isn't that cooling and refreshing?

Today this section of the country enters upon the warmest cycle of the year. From then until including July 24, the daily normal mean temperature is 76 degrees. Today it is 77; after the 24th it goes back to 75; and on grows by degrees, becoming gradually cooler. Such is the theory. But it does give something to go on as a basis. Otherwise there would be no way of knowing if it was hot, except your feelings and feelings are notoriously untrustworthy.

Many street thermometers Sunday showed 105 and 106 degrees. William Stevens, of Independence, telephoned the Times Monday that his thermometer registered 107 at 2 o'clock yesterday afternoon. It was a phenomenal record day, one beautiful story filled with interest, that will not soon be forgotten. It is a story of two young people practically everybody felt the heat, no one being immune from its scorching effects.

MEN, TOO, ARE TO HAVE WAIST LINE, BY DESIGNERS' ORDER

Atlantic City, N. J., July 13.—Oh splash! What do you think is coming off now? Nothing less than shapes for men. Shapes for men is the latest, even later than votes for women. Oh, very much so. They say the tango is responsible, but even the tango would hardly be re-

trick like that. The National Association of Clothing Designers went into session at the Hotel Royal Palace recently to discuss plans and specifications for next season's styles for men and the proper kind of shapes that men should be put into them.

Listen, Montmorency, your vest, pardon, waistcoat, is going to be convex at the top; your suit is going to fit snugly; your sleeves are going to lap; your shoulders are going to be padded into classic lines, and last of all, dear boy, you are going to have a waist line, honest!

Great Picture at Lyric Tuesday

If you want to see an unusually good dramatic picture, be sure to see "Cardinal Richelieu" at the Lyric today only. It is one of the grandest dramatic pictures of the year and tells a story that will grip you with the keenest kind of interest. James Cruise and Flora Helle are superb in their roles and the support is a picked cast of good actors. It is a four part picture, and every inch of it is action, good, healthy action that will fascinate and please the most particular patron.

"The Right of Way," a Vitagraph two-reel feature, will be shown Tuesday. This is a wonderful picture, a top-notch dramatic story, with plenty of excitement and noted by such Vitagraph favorites as Leo Darcy, Harry Northrup, Van Dyke Brooke, Norma Talmadge and Logan Paul. The admission on this picture will be only five cents and it is 76 degrees. Today it is 77; after the 24th it goes back to 75; and on grows by degrees, becoming gradually cooler. Such is the theory. But it does give something to go on as a basis. Otherwise there would be no way of knowing if it was hot, except your feelings and feelings are notoriously untrustworthy.

Today this section of the country enters upon the warmest cycle of the year. From then until including July 24, the daily normal mean temperature is 76 degrees. Today it is 77; after the 24th it goes back to 75; and on grows by degrees, becoming gradually cooler. Such is the theory. But it does give something to go on as a basis. Otherwise there would be no way of knowing if it was hot, except your feelings and feelings are notoriously untrustworthy.

Many street thermometers Sunday showed 105 and 106 degrees. William Stevens, of Independence, telephoned the Times Monday that his thermometer registered 107 at 2 o'clock yesterday afternoon. It was a phenomenal record day, one beautiful story filled with interest, that will not soon be forgotten. It is a story of two young people practically everybody felt the heat, no one being immune from its scorching effects.

THEATRICAL

"The Wolf" at The Casino

"The Wolf," presented by the Casino Players at Millbrook this week, is one of the best and most successful plays of recent years. Written by Eugene O'Neill, author of "Paid in Full," "The Warrens of Virginia," etc., it is conceded to be the strongest and most intense of his plays.

Dealing as it does with the great Northwest country, there is wide scope for thrilling and dramatic situations. It shows the contrast between the big, open-hearted man of that glorious country and the scrupulous raised from the East, the stern Scotch father, his sweet and beautiful daughter and the light-hearted young engineer. The tension is relieved by a rich vein of comedy furnished by this same young engineer. The way he plays the Scotchman brings forth screams of laughter from the audience.

The scenery is complete in every detail. The scene in the Canadian north woods, the Scotchman's cabin and the Portage of the Little Bear River are exact reproductions. This bill is sure to be a decided success. It is perhaps the most complete production, artistically speaking, that the popular Casino players have yet put on. It is being played throughout, each role fitting the actor, who plays it as if it were written especially for him.

"The Wolf" has been presented in Portsmouth only once before, and at dollar and a half prices. The Casino Players offer it at popular prices, twenty and thirty cents, and will be equal, if not better, than the road show. You should not miss seeing this great play. Besides being a pleasant evening's entertainment, it has a splendid moral lesson and is almost as good as a sermon to semi-civilized people.

In the absence of Rev. John W. Dunning, who is enjoying his annual vacation in Michigan, Rev. J. S. Dapp, of Manchester, filled the pulpit of the First Presbyterian church Sunday. He is a splendid pulpit orator and was greeted by two large audiences.

Levi's Car Hit By A Waverly Ford

A machine owned and driven by Louis Levi, furniture dealer of this city, and one piloted by Attorney John A. Eylan, of Waverly, had a collision near Wackerly Sunday morning.

While both cars were damaged, the occupants were uninjured. Mr. Eylan was accompanied by his wife and they were on their way to Crishton's Inn. Mr. Levi was accompanied by Sam J. W. Wilson, Dragan and Dr. Gilbert of this city. Eylan car virtually ran into his, as

Neither car overturned. The Eylan car, a new Ford, which was delivered to its owner last Friday, had a few feet of front end and one lamp was damaged. The Levi car had a dent put in the left side of the tonneau and one fender was crumpled, but the engine was not damaged. The force of the impact, however, caused one of the tires of the Levi machine to let go with a loud report.

According to Mr. Levi's story, the Eylan car virtually ran into his, as
